SUMMARY

Front-end and Full Stack Developer with 4+ years of experience building web and mobile applications using React and React Native. Strong focus on creating intuitive, user-centered interfaces and translating UI/UX designs into functional, high-quality products.

Experienced in API integration, feature development, and cross-functional collaboration. Background includes working on applications with authentication flows and user data management. Detail-oriented, adaptable, and committed to writing clean and maintainable code.

WORK EXPERIENCE

Front-end Developer

Flexedigital – Hermosillo, Sonora

April 2021 – Present

- Develop and maintain web and mobile applications using React and React Native.
 - Implement features and reusable UI components based on product and design requirements.
 - Translate UI/UX designs into responsive and user-friendly interfaces.
 - Integrate front-end components with APIs and backend services.
 - Identify and resolve bugs to improve application stability and user experience.
 - Collaborate with product, design, backend, and QA teams throughout the development lifecycle.
 - Support task coordination and contribute to development workflows within the team.
-

Full Stack Developer

Strategix4 – Hermosillo, Sonora

August 2022 – March 2024

- Designed and developed features for web and mobile applications.
- Built responsive UI components and connected them with backend services.
- Worked with REST APIs for data handling and application functionality.
- Participated in debugging and improving performance and reliability of applications.

- Collaborated with team members to deliver features aligned with business requirements.
-
